

## **From The edge of time**

(R. Grosch, B. Steingass)

Feel the fears are rushing in  
rushing, floating under my skin  
As it takes me high  
It feels if would die

You spoke with flattering tongue  
It sounds so fool and wrong  
A chase of idle hopes and fears  
Take the tribute of my tears

Dont deal with lies  
Dont talk wise  
Dont cry beware  
Cause I don't care

From the edge of time  
The lies we can find  
From the edge of time  
In an blink of an eye  
Your mine, mine, mine,mine

Dont deal in lies  
It isnt wise  
Dont cry beware  
Cause I don't care

## **Don't let your Angel go**

(R. Grosch, B. Steingass)

My angel needs the sky  
That makes me cry  
Cause I need his protection  
A lot of love and heavenly attraction

Don't let your angel go  
Its drop dead beautiful  
Thoughts and feelings running low  
It drives me crazy

Don't let your angel go  
I grow little he grow fast  
Don't let your angel go  
Don't let your angel go

My angel is broken by  
My fears that love could die

I grow little he grow fast

He needs my reflection and I his heavenly protection

Don't let your angel go  
Its drop dead beautiful  
Thoughts and feelings running low  
It drives me crazy

Don't let your angel go  
I grow little he grow fast  
Don't let your angel go  
Don't let your angel go

## **Strange to be in Paradise**

(R. Grosch, B. Steingass, M. Steingass)

I see no thing behind light black  
Beyond ever what I see  
Dream of home in absurdity  
Just the finite of me

Isn't it strange to be in paradise  
Isn't it strange to be  
Strange to be

New man walking on  
Transit well of wonderment

Isn't it strange to be in paradise  
Isn't it strange to be

Bleak pale voice  
In me to stay  
Strange exotic lead  
Wane of human need

No graven image  
The abstract is more  
And a minor flat  
Has no voice to sing

To say it again  
To say it again

Unknown given word of all this real  
Your name was none as life begun  
Senseless bird of wonderment  
Touching lightly darkness grace

Now to ask the curiosity  
For a cause to go again  
Is most important lead to seek  
Rather than to turn away... way... way

A spinning icon out of touch  
We need not say a word

We never will nor ever want to know  
An answer ready made  
The question is the better take  
For humans lost in paradise... dies... dice

# Destination

(R. Grosch, B. Steingass, M. Steingass)

The wind blows where it wants  
Nothing that I can come see  
Love falls where it wants  
It's not what we can head

It's like the little birds  
Nothing what we can drive  
Like the wild flower  
So bitter-sweet

Let love stay alive  
That's all we can do  
Let love stay alive  
Give me the sweetest taboo

We don't know where we go  
Nothing to reach I see  
The path is nowhere seen  
But I know it's there

I feel gladness  
Nothing I can come see  
A mighty range of silence  
Nothing we won't leave

Let love stay alive  
That's all we can do  
Let love stay alive  
Give me the sweetest taboo

## **I've Got A New Heart**

(M. Applegate, R. Grosch, B. Steingass)

cold moon hanging in a devil sky  
darkness falling when I see the light  
'couldn't breathe for the longest time - but now i breathe  
one blood brother in a boundless sea  
i am you and you are me  
almost gone until it came  
'dream to me that showed the way

gotta a new heart - a new heart  
i've gotta a new heart

second chances are the sweetest kind  
the smallest things that can change your mind  
everything is big to be  
every day is good to me

got a new heart - a new heart  
a new heart  
i've got a new heart

out of tragedy a joy arose  
this is where i learn to grow  
one blood brother in a boundless sea  
i am you and you are me

i've got a new heart - a new heart  
a new heart

fall - leaves fall  
life carries them away

got a new heart - a new heart  
a new heart  
i've got a new heart today

## **Changing fate**

(R. Grosch, B. Steingass, M. Steingass)

Giving birth to death  
I cry  
I need to change your fate  
I see  
Love must give a way  
and you're free  
deeper now my heart  
with tears

Although you fade away  
try not hold  
Although you leave  
I give you all I have  
Even when I loose it all  
I'll need no more

the waters cover me  
no way  
this deepness is my home  
so true  
The darkness crowns my head  
for you  
I wish you love I wish you life  
for ever

Although you fade away  
try not hold  
Although you leave  
I give you all  
Even when I loose it  
I need no more

Although you fade away  
try not hold  
Although you leave  
I give you all I have  
Even when I loose it all  
I hear you calling our names

## **For A While**

(M. Applegate, R. Grosch, B. Steingass)

I sit and wonder as the world goes by  
I'm gonna try and understand  
I never wanted , wanted to leave  
but now I don't know who I am

I hear a sound, a step, I see a sign  
It isn't easy for my mind  
Before your turning turning away  
I wanna look into your eyes

for a while for a while for a while  
for a while for a while for a while

I know we'll never hold the hands of time  
or find the place we started from  
but for a moment we'll slow it down  
so come on baby come

for a while for a while for a while  
for a while for a while for a while

for a while for a while for a while we try  
for a while for a while for a while we try  
we try try try

**Is it wrong or is it wright**

(R. Grosch, B. Steingass)

Is it wright or is it wrong if you take all of me

## **Never Take It Fast**

(M. Applegate, R. Grosch, B. Steingass)

when the time has come  
i will move on  
i can close my eyes  
higher than a bird,  
be anyone  
i can touch the sun  
walk upon a cloud  
i can catch the wind  
never tread the ground  
i can toss out my fears  
i finally see who I am

i am wild and free  
no one owns me  
endless is the flight  
freedom is my word  
and so i stay  
there's no land in sight  
only spaceless time  
never take it fast  
fast will make you blind  
i can toss out my fears  
and finally see who I am

no no no say goodbye  
no no no no reason why  
no no no say goodbye  
no no no say goodbye  
no no no say goodbye  
no no no no reason why  
no no no say goodbye  
no no no no reason why  
bye bye bye

## **Tricky Time**

(R. Grosch, B. Steingass)

What a time a time of pining care to fill the void

Sometimes - In weary nights - we feel the bliss of all destroyed

Refrain:

Living in a tricky time

We know that tomorrow is blind

Living in a tricky time

You're a fool cause nothing waits behind

We are nothing but a blink of eye Nothing more- nothing more  
While the moon is staggering in the sky

Refrain:

Living in a tricky time

We know that tomorrow is blind

Living in a tricky time

You're a fool cause nothing waits behind

Oh What time - a tricky time A suspicious way  
transit from nothing to no

# The Fall

(R. Grosch, B. Steingass, M. Steingass)

No one knows what color you have

No one knows what you will be

`cause your life is a dream we need

'cause our life is all going wrong

No one even knows what voice you have

No one even knows what your thoughts will be

Cause your life needs a new idea

About the meaning and what to do

So don't fool around

So don't fool around

So don't fool around

Fool around, fool fool around

No one knows what change will come

No one knows how it will be done

Another thought will open up to us

And light the world with glow

The song *Aqua de beber* is a coverversion. Lyrics by Vinícius de Moraes.  
The song *That wind* is inspired by a poem of Emely Brontë.  
The song *My one and only love* is a coverserion. Lyrics by Robert Mellin
